

Research Opportunities

The fellowship supervisors are leaders in clinical breast research and there are many opportunities for participating in ongoing research or beginning new research projects.

Fellowship Funds

The total funds of 17.000 EUR, sponsored generously by POLYTECH Health & Aesthetics, will be distributed as follows:

- 3.000 EUR will be paid to the selected candidate for his/her living during the clinical immersion fellowship in Brussels
- 13.500 EUR will cover the inscription fees for the Master's degree (MRBS)
- 500 EUR will cover insurance and administrative fees for the Brussels University Hospital

Now accepting applications.

Application deadline: 31 March 2019.
(Selection will be known by mid-April 2019.)

POLYTECH Health and Aesthetics – Germany

The Clinical Fellowship starts yearly in January and runs for 3 months in Brussels.

Prof. Hamdi and his team provide a large experience with a broad spectrum of clinical and research filed in breast surgery. It is an intensive and comprehensive module of refinement in both reconstructive and aesthetic surgery. All types of breast reconstruction will be covered including autogenous (pedicled flaps, free flaps and perforator flaps) implant breast reconstruction, and oncoplastic approaches to breast cancer. Various techniques of breast reduction and mastopexy together with implant breast augmentation procedures will be exposed by the different staff members of the department. In addition, the department manage many referral cases for revision breast surgery. Fat grafting for both reconstructive and aesthetic is a daily practice. Finally, the fellow will join the multidisciplinary approach to lymphedema with the lymph clinic.

The MRBS starts early in September.

It is officially awarded by the **Universitat Autònoma de Barcelona** and organized in association with a faculty of internationally renowned experts. Delivered in a modular format (11 face-to-face modules), this degree allows you to learn all aspects of breast surgery from a highly qualified and dedicated faculty from across Europe. These tutors have been chosen as they have the expertise to provide you with the training needed in order to become proficient in this field. For more information please go to: www.mrbs.rmes.es

Eligibility

We only accept applications from those who will have fully completed certification of a recognized Plastic Surgery training program or are in their last year of training.
